Bill Topic: INCOME TAX DEDUCTION FOR MILITARY RETIREMENT BENEFITS

Summary of Fiscal Impact:

<input checked="" type="checkbox"/> State Revenue	<input type="checkbox"/> TABOR Refund
<input checked="" type="checkbox"/> State Expenditure	<input type="checkbox"/> Local Government
<input type="checkbox"/> State Transfer	<input type="checkbox"/> Statutory Public Entity

This bill allows an income tax deduction for military retirement benefits received by individuals under age 55. The deduction is capped at \$20,000 per tax year. This bill will result in an annual decrease in state revenue beginning in FY 2018-19 and continue in future years. One-time expenditures of \$35,000 result in FY 2019-20.

Appropriation Summary: No appropriation is required.

Fiscal Note Status: This bill reflects the introduced bill.

Expenditures	General Fund	-	\$35,038	-
Transfers		-	-	-

Summary of Legislation

Beginning in tax year 2019, this bill allows an income tax deduction for military retirement benefits received by individuals under age 55. The deduction is capped at \$20,000 per tax year.

Background

Under current law, qualifying taxpayers aged 55 to 64 may deduct up to \$20,000 in retirement income from their taxable income each year and qualifying taxpayers aged 65 and older may deduct up to \$24,000 each year. The deduction is allowable for both military and non-military sources of retirement income, including but not limited to Social Security income, pensions, and 401(k) retirement plan distributions.

State Revenue

This bill is estimated to reduce General Fund revenue by up to \$5.1 million in FY 2018-19 (half-year impact), up to \$10.2 million in FY 2019-20, and up to \$10.3 million in FY 2020-21. In future fiscal years, the revenue impact is expected to grow with the military retirement population, cost of living adjustments, and changes in military retirement benefits.

Assumptions. Based on data from the Department of Defense's Office of the Actuary, the number of retirees in Colorado under the age of 55 receiving non-disabled military benefits was approximately 11,000 in 2017. On average, these retirees received an annual benefit payment of \$27,000, with a majority receiving annual benefits in excess of the \$20,000 cap specified in this bill.

This fiscal note assumes the majority of these taxpayers will have a Colorado income tax liability large enough to claim the full \$926 ($\$20,000 \times 4.63\%$) savings allowed under this bill because many military retirees under age 55 pursue a second career thus increasing their total taxable income. On average, taxpayers with a total adjusted gross income between \$35,000 to \$50,000 had a state income tax liability of \$992 in 2013, the latest available data. This average tax liability and that of higher income taxpayers exceeds the maximum \$926 tax savings under the bill. To the extent that qualifying taxpayers do not have an income tax liability large enough to experience the full savings from this bill or do not reach the \$20,000 cap, state revenue reductions estimated in this fiscal note will be lower.

To the extent that this bill induces nonresidents who receive military retirement benefits to move to Colorado who otherwise would not have moved, or induces current residents receiving such benefits to remain in Colorado who otherwise would have moved, the state and local governments may receive additional revenue through taxes and fees that may partially offset the revenue impact of this bill.

TABOR Refund

This bill decreases state revenue subject to TABOR by up to \$5.1 million in FY 2018-19 and \$10.2 million in FY 2019-20. State revenue is not currently expected to exceed the TABOR limit in either year and no refund is required. Therefore, the bill is not expected to impact TABOR refunds in these years. However, refunds in future years when the state next collects a TABOR surplus will be reduced.

State Expenditures

This bill will increase General Fund expenditures for the Department of Revenue by \$35,038 in FY 2019-20. Costs include programming, testing, and form change costs, as summarized in Table 2.

**Table 2
Expenditures Under HB 18-1060**

Cost Components	FY 2018-19	FY 2019-20
Department of Revenue	-	-
GenTax Programming	-	\$30,000
GenTax Testing	-	\$3,838
Form Change Costs	-	\$1,200
Total	-	\$35,038

Department of Revenue. This bill requires changes to the Department of Revenue's GenTax software system, which is programmed by a contractor at a rate of \$250 per hour. These changes are expected to increase General Fund expenditures by \$30,000, representing 120 hours of programming. All GenTax programming changes are tested by department staff, requiring expenditures for contract personnel totaling \$3,838, representing 160 hours of testing at a rate of \$24 per hour. Individual income tax form updates and programming changes typically begin in the last quarter of the first year the tax deduction is available. Retirement income is reported on federal income tax returns, requiring minimal verification workload demands that can be accommodated within existing appropriations.

Department of Personnel and Administration. This bill requires programming and reconfiguring of the document imaging system to insert an additional line to capture the deduction value on individual income tax form 104CR. This will require one-time programming costs of \$1,200 in FY 2019-20 which will be reappropriated from the Department of Revenue to the Department of Personnel and Administration.

Effective Date

The bill takes effect August 8, 2018, if the General Assembly adjourns on May 9, 2018, as scheduled, and no referendum petition is filed.
