Current Appropriations Clause in Bill

The bill neither requires nor contains an appropriation clause for FY 2018-19.

Points to Consider

Future Budget Processes

This bill does not require any additional expenditures in FY 2018-19. However, in the event that the Air Quality Control Commission increases fees paid by stationary sources of air pollutants, the Department of Public Health and Environment would have to submit a budget request to adjust FY 2018-19 appropriations mid-year, or to adjust appropriations for FY 2019-20.
