A BILL FOR AN ACT

CONCERNING RESEARCHING EFFECTIVE METHODS FOR ASSISTING EARLY-GRADE STUDENTS WITH DYSLEXIA.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at http://leg.colorado.gov.)

The bill directs the commissioner of education (commissioner) to convene a working group to analyze state and national data and practices concerning identification and support of students with dyslexia and to recommend dyslexia screening tools and processes, a statewide plan for identifying and supporting students with dyslexia, and educator training in recognizing and providing interventions for students with dyslexia. The
working group must submit a report of its recommendations to the commissioner, and the commissioner must submit the report to the state board of education and the education committees of the general assembly.

The bill directs the department of education (department) to establish a pilot program to assist school districts, boards of cooperative services, and charter schools (local education providers) in using READ act assessments to screen for dyslexia and in providing interventions for students who are identified as having dyslexia. At the completion of the pilot program, the department must evaluate the effectiveness of the screening and interventions, refine the resources used, and disseminate the resources used to all local education providers in the state. The department must also provide technical assistance in implementing the resources at the request of a local education provider.

The bill directs the commissioner to provide a dyslexia specialist to support the working group and the pilot program and to develop training materials related to dyslexia.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. In Colorado Revised Statutes, add article 20.5 to title 22 as follows:

ARTICLE 20.5

Education of Children with Dyslexia

22-20.5-101. Legislative declaration. (1) The General Assembly finds that various educational advocacy groups, including parents of children identified as having dyslexia, have voiced concerns related to the adequacy and effectiveness of the methods and tools for identifying students who have dyslexia and the adequacy of the educational supports for these students. While there have been various efforts at both the state and school district levels to address the issues related to effective identification and support for students with dyslexia, these efforts have not resulted in significant progress in educating these students. Therefore, the general
ASSEMBLY, recognizing the obligation of the State of Colorado
to provide educational opportunities to all children that will
enable them to lead fulfilling and productive lives, finds that
it is necessary to create a working group of parents and
educational experts to review the work of educational experts
and local education providers in Colorado and in other states
in the area of identification of and educational support for
students with dyslexia and to use their findings to inform future
efforts by the State and local education providers to identify
and effectively support students with dyslexia.

(2) The General Assembly further finds that a pilot
program through which the Department of Education works with
a group of volunteer local education providers to use early
literacy assessment results to identify markers of dyslexia and
provide support to young students who may demonstrate the
early markers for dyslexia will strengthen the ability of local
education providers throughout the State to identify and
effectively support students with dyslexia.
