2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 hereby finds and declares that:

4 (a) A highly functioning health care system with a robust primary
5 care foundation delivers quality health care at a lower cost;

6 (b) A primary care system with adequate resources would ensure
7 delivery of the right care, in the right place at the right time;

8 (c) Evidence indicates investments in advanced primary care
9 delivery yield net savings, as demonstrated in the Colorado medicaid
10 accountable care collaborative;

11 (d) Additional investments in primary care should come through
12 evidence-based alternative payment models that:

13 (I) Provide incentives for value rather than volume;

14 (II) Are adequate to sustain infrastructure to deliver advanced
15 primary care that is patient-centered, comprehensive, coordinated, and
16 accessible;

17 (III) Direct resources to the patient and the practice level that
18 expand the capacity of the primary care system to equitably meet the
19 health needs of patients; and

20 (IV) Sustain advanced primary care delivery models, such as the
21 patient-centered medical home, that provide quality and accountable care;

22 (e) The share of health care spending on primary care is a critical
23 measure of the primary care orientation of a health care system; ■

1 (f) The state of Colorado will achieve more affordable care and
2 better outcomes by consistently measuring and sustaining a system-wide
3 investment in primary care; and

4 (g) The health care system is a comprehensive entity that requires
5 the commissioner of insurance to evaluate the total cost of health care as
6 part of the rate review process in order to decrease health care disparities
7 in Colorado and to advance the welfare of the public through overall
8 quality, efficiency, and affordability.
