certificates. The department shall administer the program.

Based on criteria listed in the bill, the department shall prepare a list of qualified providers. A qualified provider may be a public, nonprofit, or private accredited, degree-granting organization with at least 2 years of experience in providing adult dropout recovery services resulting in an accredited high school diploma, as well as other criteria.

The bill includes performance standards for qualified providers and allows the department to suspend or remove providers from the list of qualified providers for failing to meet those standards.

The bill sets forth the amount of the payments qualified providers receive for each performance goal met by their eligible students.

Qualified providers receiving payments must report certain information to the department. The department shall report to certain committees of the general assembly summarizing the information reported by qualified providers.

The bill repeals the program in 2022.
