Eligible recipients of foster care prevention services include children and youth and their parents, legal custodians, legal guardians, and kin caregivers when their needs are directly related to the safety, permanent placement, or well-being of the child or youth.

If a child or youth is placed in a qualified residential treatment program (QRTP), the court or the administrative review division of the department is required to review the assessment and needs of the child or youth and determine whether placement in the QRTP is appropriate.

The bill requires the county department of human or social services (county department) to submit certain evidence to the court during each review and permanency hearing of a child or youth placed in a QRTP.

The county department may provide foster care prevention services to a child or youth and the parents or kin caregivers of the child or youth upon the receipt of a report of intrafamilial abuse or neglect or human trafficking.

The bill adds the federal "Family First Prevention Services Act" as a program to be administered by the department. The bill adds foster care prevention services to the definition of child welfare services.
