inspection may be performed through the use of an electronic device. The bill requires the prospective lessor to verify that the prospective lessee's license is unexpired.

Current law requires a person who rents a motor vehicle to another person to keep a record of the registration number of the motor vehicle, the name and address of the other person, the number of the license of the other person, and the date and place when and where the license was issued. The bill removes the requirement that the record include the date that the license was issued and permits the person who rents the motor vehicle to maintain the record in an electronic format.
