over the prior budget year.

Section 3 amends the professional development and student support program (program) for English language learners and educators who work with English language learners to distribute money appropriated for the program's services and educator professional development activities proportionately, based on the level of English language proficiency of the students served by the program.

Section 4, for the 2019-20 budget year, distributes \$25 million on a per pupil basis to large rural school districts and small rural school districts, including district charter schools and each institute charter school whose accounting district is a large or small rural school district. Large rural school districts share 55% of the appropriation, and small rural school districts share 45% of the appropriation. The bill bases the distribution on a school district's funded pupil count for the 2018-19 budget year. The bill specifies the intended uses of the money.

Section 5 distributes \$5 million to school districts, including district charter schools and the state charter school institute schools, to address behavioral health issues in schools. Each school district and the state charter school institute receive an initial allocation of \$20,000. The remaining appropriation is then distributed on a per pupil basis to the school district and state charter school institute based on the school district's total funded pupil count for the 2018-19 budget year and the total student enrollment in institute charter schools for the 2018-19 budget year.
