Summary of Legislation

House Bill 17-1340 created the Legislative Interim Committee on School Finance (the committee) to study school finance issues and make legislative recommendations concerning the funding of kindergarten through grade 12 (K-12) education in Colorado. The committee was authorized to meet during the 2017 and 2018 interim. This bill extends the work of the committee for one additional year through the 2019 interim.

Additionally, this bill:

- allows the Speaker of the House of Representatives to appoint the committee chair for the 2019 interim, and allows the members of the committee to elect a vice chair;
- modifies the composition of the committee and specifies the method for filling vacancies;
- gives the committee flexibility to determine issues of study;
- authorizes, but does not require, that the committee contract with an outside vendor for data gathering, analysis or facilitation; and
- permits the committee to use any unspent and uncommitted appropriations from the current FY 2018-19 to pay for FY 2019-20 expenditures.

Background

The committee met during the 2017 and 2018 interims. In each fiscal year, the committee received a \$380,000 appropriation for staff, member travel and per diem, and contacting with an outside vendor. The committee contracted with two separate vendors to assist with facilitation, research, and modeling alternative school finance allocation methods. In the current FY 2018-19, the committee spent or committed approximately \$101,279 of the appropriation, leaving approximately \$278,700 available for expenditure in FY 2019-20. Appropriations for the committee are from the State Public School Fund.

State Expenditures

For FY 2019-20 only, the bill increases state expenditures in the Legislature by up to \$285,803 and 0.5 FTE. New expenditures are displayed in Table 2 and discussed below.

* Centrally appropriated costs are not included in the bill's appropriation.

Personal services. Legislative Council Staff and the Office of Legislative Legal Services will provide staff support to the committee. Pursuant to House Bill 12-1299, interim committees are designated by the Legislative Council during the legislative session following letters of request made by individual legislators. Committees authorized through this process are within the legislative budget for the following fiscal year. Committees established in special legislation and not via the letter request process require an appropriation for staff support and other expenditures. Standard personnel costs include 0.3 FTE for Legislative Council staff and 0.2 FTE for Office of Legislative Legal Services staff.

Legislator travel, per diem, and reimbursements. The committee is authorized to meet five times during the 2019 interim. Ten legislators participating in five meetings will incur costs for travel, daily per diem, and reimbursement of expenses.

Vendor contracts. The committee is authorized but not required to enter into vendor contracts to support their work. Should the committee contract for vendor services in FY 2019-20, approximately \$225,300 is available.

Centrally appropriated costs. Pursuant to a Joint Budget Committee policy, certain costs associated with this bill are addressed through the annual budget process and centrally appropriated in the Long Bill or supplemental appropriations bills, rather than in this bill. These costs, which include employee insurance and supplemental employee retirement payments, are estimated to be \$7,081 in FY 2019-20.

Effective Date

The bill was signed into law by the Governor and it took effect on May 13, 2019.

State Appropriations

The uncommitted and unspent appropriation from FY 2018-19 is sufficient to pay for the state expenditures in FY 2019-20 identified in Table 2. The bill includes an appropriations clause authorizing Legislative Council Staff and the Office of Legislative Legal Services to roll-forward the prior-year appropriation into FY 2019-20; therefore, no additional appropriation is required.
