of the project is reasonably expected to exceed \$150,000 for any fiscal year. The bill:

- Repeals the lower cost amount for CDOT projects, which means that the requirements of the act, including the requirement that CDOT prepare a bid estimate when it proposes to undertake a project itself rather than awarding the project to a contractor through competitive bidding, will apply to a CDOT project only if the cost of the project is reasonably expected to exceed \$500,000 for any fiscal year; and
- Increases from \$50,000 to \$100,000 the maximum cost for a CDOT project that is exempt from transportation commission approval.

The bill also limits the existing requirement that CDOT pay all employees performing work on any public project local prevailing wages in accordance with specified federal acts to projects that cost more than \$500,000.
