holds an adjunct instructor authorization may be employed under the authorization only in the school district or charter school that requested the person's services. A person who holds an adjunct instructor authorization and is employed by a school district may teach only under the general supervision of a licensed professional. A school district and a charter school may not employ the person as a full-time teacher.

The bill requires the department of education (department) to direct resources to publicize existing teacher preparation programs to facilitate entry into the teaching profession. The bill also requires the department to provide technical support to school districts, boards of cooperative services, and charter schools to assist them in accessing the existing programs and in recruiting individuals to pursue teaching careers.

The bill requires the state board for community colleges and occupational education to collaborate with the department and the deans of the schools of education and academic administrators in Colorado institutions of higher education, or their designees, to design a teaching career pathway for individuals to enter the teaching profession. The bill outlines the components of the teaching career pathway program.

The bill creates the teacher recruitment education and preparation program (TREP program). Two of the main objectives of the TREP program are to increase the number of students entering the teaching profession and to create a more diverse teacher workforce to reflect the ethnic diversity of the state. A qualified TREP program participant may concurrently enroll in postsecondary courses in the 2 years directly following the year in which the participant was enrolled in the twelfth grade of a local education provider. The bill outlines the selection criteria and requirements for the TREP program.

The bill creates the educator recruitment and retention program (ERR program) in the department to provide support to members of the armed forces, nonmilitary-affiliated educator candidates, and local education providers to recruit, select, train, and retain highly qualified educators across the state. The state board of education and the state board for community colleges and occupational education shall promulgate rules to implement the ERR program. The bill outlines the eligibility criteria and program services. Eligible ERR program participants may receive up to \$10,000 for the tuition cost of participating in an educator preparation program.
