SENATE
2nd Reading Unamended
May 26, 2021

The bill requires, in state fiscal year 2021-22 only, and within available appropriations, that the department of education distribute supplemental payments to facility schools approved by the department as of October 1, 2021. The supplemental payments must be above and beyond the current daily per pupil revenue rate as established for the 2021-22 state fiscal year.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Approximately 1,600 children and youth per day require the
5 delivery of educational services and supports in residential or day
6 treatment facilities, hospital settings, home-bound environments, or other
7 specially designed district programs due to physical, behavioral, mental
8 health, or special education service needs that exceed the services and
9 supports available in some educational settings in the state of Colorado;

10 (b) Facility schools are currently operated by residential child
11 care, day treatment, and hospital providers whose overall capacity has
12 decreased by thirty percent in the past five years due to provider closures
13 and reforms in the child welfare system that limit the number of
14 placements in a residential facility;

15 (c) Insufficient capacity in facility schools may result in
16 out-of-state placements for students, separating students from families
17 and communities, and often imposing extraordinary costs on school
18 districts and counties to pay for those out-of-state placements and
19 services; and

20 (d) The educational placement costs are borne directly by the
21 placing entity, thereby negatively impacting available resources to
22 provide services and supports to all children and youth.

1 (2) The general assembly therefore resolves and declares that
2 addressing the educational, physical, behavioral, and mental health needs
3 of children and youth who need advanced services requires:

4 (a) The development of a comprehensive continuum of
5 educational settings to support the educational, physical, behavioral, and
6 mental health needs of these children and youth;

7 (b) The provision of adequate educational options that include, but
8 are not limited to, eligible and approved facility schools as described in
9 part 4 of article 2 of title 22, school districts, boards of cooperative
10 services, multi-district cooperatives, multi-agency partnerships, and the
11 division of youth services; and

12 (c) Ensuring the development of a sustainable funding structure
13 that supports a high-quality educational continuum intended to meet the
14 educational needs of children and youth requiring advanced services.

15 **SECTION 2.** In Colorado Revised Statutes, 22-2-402, **add** (3.3),
16 (3.8), and (9) as follows:
