## Summary of Legislation

The bill updates the requirements for the Colorado Department of Education's (CDE) model bullying prevention and education policy and requires school districts to incorporate this policy in their discipline code.

**Model bullying prevention and education policy.** When updating its model bullying prevention and education policy, the bill requires the CDE to utilize a stakeholder process that includes parents of students who have been bullied. The updated model policy must, at a minimum, clearly differentiate between conflict and bullying and harassment and bullying, and must clarify the role of cyberbullying during online instruction.

**School district bullying policy.** Each school district board of education or institute charter school board must include in their conduct and discipline code the approaches, policies, and practices outlined in the model bullying prevention and education policy developed by CDE and must report the number of bullying violations of the conduct and discipline code.

## State Expenditures

Workload for CDE will increase to include the additional requirements of the bill within its model policy during its next update, and to collect data on bullying violations. This work can be accomplished within existing appropriations.

## School District

If school districts need to update their conduct and discipline code to reflect the model policy, expenditures will increase. In addition, workload will increase to report the number of bullying violations.

## Effective Date

This bill was signed into law by the Governor and took effect on June 7, 2021.
