A BILL FOR AN ACT

101 **CONCERNING THE AFFORDABILITY OF EPINEPHRINE AUTO-INJECTORS,**
102 **AND, IN CONNECTION THEREWITH, MAKING AN APPROPRIATION.**

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)

Effective January 1, 2024, the bill creates an epinephrine auto-injector affordability program (program) to provide low-cost epinephrine auto-injectors to individuals who:

- Are residents of this state;
- Are not enrolled in the state medicaid program or the federal medicare program;

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.
*Capital letters or bold & italic numbers indicate new material to be added to existing law.
Dashes through the words or numbers indicate deletions from existing law.*

- Have a prescription for an epinephrine auto-injector; and
- Are not enrolled in prescription drug coverage that limits the total amount of cost sharing that the enrollee is required to pay for an epinephrine auto-injector.

The bill requires the division of insurance in the department of regulatory agencies (division) to create an application for the program and requires the division and the department of health care policy and financing to make the application available on their websites and to promote the availability of the program.

The bill requires a carrier that provides coverage for prescription epinephrine auto-injectors to cap the total amount that a covered person is required to pay for all covered prescription epinephrine auto-injectors at an amount not to exceed \$60 for a 2-pack of epinephrine auto-injectors.

A pharmacy that dispenses epinephrine auto-injectors is authorized to collect a copayment not to exceed \$60 from the individual to cover the pharmacy's costs of processing and dispensing a 2-pack of epinephrine auto-injectors.

A manufacturer of epinephrine auto-injectors:

- Is required to make epinephrine auto-injectors available to individuals through the program; and
- May be required to reimburse the dispensing pharmacy an amount that covers the difference between the pharmacy's wholesale acquisition cost for the number of epinephrine auto-injectors dispensed through the program and the amount the recipients of the epinephrine auto-injectors paid for the same number of epinephrine auto-injectors or send the pharmacy a replacement supply of the same number of epinephrine auto-injectors.

If a manufacturer fails to comply with the requirements of the bill, the manufacturer may be subject to a fine.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Individuals who have moderate to severe allergies, severe
5 asthma, or genetic conditions such as angioedema are at risk of reactions
6 that can occur within seconds or minutes and that can lead to anaphylaxis,
7 a potentially fatal reaction;

8 (b) Epinephrine works quickly to improve breathing, stimulate the

1 heart, raise dropping blood pressure, prevent airways from closing,
2 prevent or decrease shock, reverse hives, and reduce swelling of the face,
3 lips, and throat;

4 (c) Delay in appropriate treatment for anaphylaxis almost certainly
5 contributes to death in individuals, so it is critical that all anaphylaxis
6 reactions are treated as a medical emergency;

7 (d) In Colorado, there are approximately 565,824 individuals with
8 life-threatening food allergies, which is more than the population of
9 Colorado Springs; of these individuals, 101,848 are under 18 years of age,
10 which means that the number of children with food allergies in Colorado
11 is larger than the population of Longmont;

12 (e) Epinephrine auto-injectors are essential because they are the
13 easiest and most efficient way to potentially save the life of an individual
14 exhibiting symptoms of or experiencing anaphylactic shock;

15 (f) Many individuals are unable to afford an epinephrine
16 auto-injector because they cannot pay the copayment amount required
17 under their insurance plan or, if they are uninsured, the cost of an
18 epinephrine auto-injector; these individuals risk their lives every day by
19 not having access to this life-saving medicine if faced with an allergic
20 reaction; and

21 (g) Rising costs of epinephrine auto-injectors make this
22 life-saving medication difficult or impossible to obtain for many people,
23 even those with private health insurance or who are enrolled in a public
24 health benefit program.

25 (2) Therefore, it is the intent of the general assembly to establish
26 an epinephrine auto-injector affordability program to ensure Colorado
27 residents have greater access to epinephrine.

1 **SECTION 2.** In Colorado Revised Statutes, **add** 10-16-158 as
2 follows:

9 COVERAGE PLAN THE CARRIER OFFERS SHALL CAP THE TOTAL AMOUNT
10 THAT A COVERED PERSON IS REQUIRED TO PAY FOR ALL COVERED

12 EXCEED SIXTY DOLLARS FOR A TWO-PACK OF EPINEPHRINE
13 AUTO-INJECTORS, REGARDLESS OF THE AMOUNT OR TYPE OF EPINEPHRINE
14 NEEDED TO FILL THE COVERED PERSON'S PRESCRIPTION.

16 REDUCING A COVERED PERSON'S COST SHARING TO AN AMOUNT THAT IS
17 LOWER THAN THE AMOUNT SPECIFIED IN SUBSECTION (2) OF THIS SECTION.

18 (4) THE COMMISSIONER MAY USE ANY OF THE COMMISSIONER'S
19 ENFORCEMENT POWERS TO OBTAIN A CARRIER'S COMPLIANCE WITH THIS
