intervention, and refers the student to substance use treatment resources.

The department is required to publicly publish a report of the committee's findings and submit the report to the superintendent of every school district and chief administrator of every institute charter school that is a secondary school.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds and declares that:

- (a) Substance use is a major issue afflicting Colorado youth;
- (b) Colorado has higher levels of substance use, particularly among youth, than most other states;
- (c) Colorado schools' substance use intervention programs lack uniformity, resulting in inequitable interventions and treatment referrals for youth;
- (d) A screening, brief intervention, and referral to treatment methodology has been adopted by schools with school-based health centers, and this methodology has revolutionized substance use treatment for youth;
- (e) The screening, brief intervention, and referral to treatment methodology, if modified appropriately, may be implemented in secondary schools without school-based health centers in order to provide more support to youth who use substances;
- (f) Access to the crisis response system is critical for youth suffering from behavioral health and substance use crises; and
- (g) Adequate funding for the crisis response system is necessary to ensure that youth suffering from behavioral health and substance use crises may seek and receive timely support in order to prevent avoidable outcomes.
