care provided did not violate Colorado law:

- A medical malpractice insurer from refusing to issue, canceling or terminating, refusing to renew, or imposing any sanctions, fines, penalties, or rate increases for a medical malpractice policy (**section 2**);
- A health insurer from taking an adverse action against a health-care provider, including refusing to pay for a provided health-care service, terminating or refusing to renew a contract with the health-care provider, or imposing other penalties on the health-care provider (**section 3**);
- A health insurer from refusing to credential a physician as a network provider or terminating a physician's status as a network provider (**section 4**); or
- A person or entity from terminating a health-care contract with a health-care provider (**section 25**).

Section 5 protects an individual applying for licensure, certification, or registration in a health-care-related profession or occupation in Colorado (applicant), as well as a health-care professional currently licensed, certified, or registered in Colorado (licensee), from having the license, certification, or registration denied or discipline imposed against the licensee based solely on:

- The applicant's or licensee's provision of, or assistance in the provision of, a legally protected health-care activity in this state or another state or United States territory, so long as the care provided was consistent with generally accepted standards of practice under Colorado law and did not otherwise violate Colorado law;
- A civil or criminal judgment or a professional disciplinary action arising from the provision of, or assistance in the provision of, a legally protected health-care activity in this state or another state or United States territory, so long as the care provided was consistent with generally accepted standards of practice under Colorado law and did not otherwise violate Colorado law;
- The applicant's or licensee's own personal effort to seek or engage in a legally protected health-care activity; or
- A civil or criminal judgment against the applicant or licensee arising from the individual's own personal legally protected health-care activity in this state or another state or United States territory.

Section 6 prohibits a court, judicial officer, court employee, or attorney from issuing a subpoena in connection with a proceeding in another state concerning an individual who accesses a legally protected health-care activity in Colorado or an individual who performs, assists, or aids in the performance of a legally protected health-care activity in

Colorado.

Section 7 prohibits the state from applying another state's law to a case or controversy heard in Colorado state court or giving any force or effect to any judgment issued without personal jurisdiction or due process or to any judgment that is penal in nature pursuant to another state's law if the other state's law authorizes a person to bring a civil action against another person or entity for engaging or attempting to engage in a legally protected health-care activity.

If a medical malpractice action is brought in this state against a health-care provider regulated in this state or another state, **section 8** prohibits a court or arbitrator from allowing evidence or witness testimony relating to professional discipline or criminal or civil charges in this state or another state concerning the provision of, or assistance in the provision of, a legally protected health-care activity, so long as the care provided did not violate Colorado law.

Section 9 prohibits a peace officer from knowingly arresting or participating in the arrest of any person who engages in a legally protected health-care activity, unless the acts forming the basis for the arrest constitute a criminal offense in Colorado or violate Colorado law.

Section 10 prohibits the issuance of a search warrant to search for and seize any property that relates to an investigation into a legally protected health-care activity.

Section 11 prohibits a judge from issuing a summons in a case when a prosecution is pending, or when a grand jury investigation has started or is about to start, for a criminal violation of another state's law involving the provision or receipt of or assistance with accessing a legally protected health-care activity that is legal in Colorado, unless the acts forming the basis of the prosecution or investigation would also constitute a criminal offense in Colorado.

Section 12 prohibits the issuance of an ex parte order for wiretapping or eavesdropping to obtain any wire, oral, or electronic communication that relates to an investigation into a legally protected health-care activity.

Current law allows for the extradition of a person who committed an act in this state that intentionally results in a crime in the state whose executive authority is making the demand, even though the accused was not in the demanding state at the time of the commission of the crime.

Section 13 requires the acts for which extradition is sought to be punishable by the laws of this state if the acts occurred in this state and prohibits the governor from surrendering a person charged in another state as a result of the person engaging in a legally protected health-care activity, unless the executive authority of the demanding state alleges in writing that the accused was physically present in the demanding state at the time of the commission of the alleged offense.

Section 14 requires a correctional facility or private contract

prison incarcerating a person who is capable of pregnancy to, regardless of the person's ability to pay, ensure access to abortions by providing a pregnant person with information about abortion providers; referrals to community-based providers of abortions; referrals to community-based organizations that help people pay for abortions; and transportation to access an abortion; and ensure access to miscarriage management, including medication.

Section 15 adds a reproductive health-care services worker to the list of protected persons whose personal information may be withheld from the internet if the protected person believes dissemination of such information poses an imminent and serious threat to the protected person or the safety of the protected person's immediate family.

Section 16 prohibits the prosecution or investigation of a licensed health-care provider if the health-care provider prescribes an abortifacient to a patient and the patient ingests the abortifacient in another state so long as the abortifacient is prescribed or administered consistent with accepted standards of practice under Colorado law and does not violate Colorado law.

Section 17 through section 20 adds a protected health-care worker to the list of persons authorized to participate in the address confidentiality program.

Section 21 authorizes the attorney general to independently initiate and bring a civil and criminal action to enforce the "Reproductive Health Equity Act".

Section 22 prohibits a state agency from providing any information or using any government resources in furtherance of any out-of-state investigation or proceeding seeking to impose civil or criminal liability or professional sanction upon a person or entity for engaging in a legally protected health-care activity.

Section 23 prohibits a public entity from:

- Denying, restricting, or interfering with, through any efforts, including licensing or zoning restrictions, any person's or business entity's ability to provide reproductive health care; or
- Interfering with, discriminating against, or penalizing, through any civil or criminal laws, any person or business entity for assisting, aiding, or treating an individual for reproductive health care; or
- Prohibiting or restricting, through any civil or criminal laws, including the establishment or expansion of a private right of action, any person or business entity from assisting, aiding, or treating an individual for reproductive health care.

Section 24 authorizes an action to enforce the provisions of the "Reproductive Health Equity Act" to be commenced by a person or

business entity with standing in Denver district court.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) The United States Supreme Court's decision in June 2022 to
5 overturn *Roe v. Wade* in *Dobbs v. Jackson Women's Health Organization*
6 has had immediate, disastrous effects on health care across the country.
7 The resulting patchwork of state laws, executive orders, local ordinances,
8 and court challenges has led to legal chaos and has caused grief, fear, and
9 confusion.

10 (b) As of January 2023, twenty-four states have banned abortion
11 or severely restricted abortion access, and more will likely try to do so in
12 the near future;

13 (c) Nationally, abortion clinics across the country are closing,
14 resulting in an eroded reproductive health-care infrastructure. Almost all
15 abortions are performed in clinics rather than in hospitals or doctors'
16 offices, and in the ten years before the *Dobbs* decision, a third of
17 independent clinics closed. That pace of closure has doubled since *Dobbs*.
18 Alarming, one hundred days after the decision to overturn *Roe*, at least
19 sixty-six clinics in fifteen states stopped offering abortion care, and most
20 clinics closed, eliminating preventative health-care access as well.

21 (d) Colorado's abortion providers are the closest available
22 providers to the 1.2 million people seeking care from neighboring states,
23 and Colorado clinics have seen a thirty-three percent rise in the number
24 of patients seeking abortion care post-*Dobbs*. Colorado residents seeking
25 abortion care and other wellness care that many clinics provide, especially

1 in rural and other underserved areas, face wait times that have increased
2 from one or two days up to three weeks in some cases. Colorado residents
3 seeking gender-affirming care will see a similar increase in wait times as
4 other states enact further restrictions. It is chillingly clear that since
5 *Dobbs*, Colorado's reproductive health-care infrastructure is threatened
6 by exterior pressures.

7 (e) A growing number of states, the same states hostile to abortion
8 rights, are also banning gender-affirming health care and pursuing
9 anti-LGBTQ+ legislation. Alabama, Arizona, Arkansas, Utah, and
10 Tennessee have enacted prohibitions on gender-affirming care for youth
11 and young adults. Eleven other states are considering restrictions that
12 would make providing gender-affirming health care a felony or ban
13 insurance coverage for such care, with Missouri's proposed law
14 criminalizing care for patients up to age twenty-five.

15 (f) Several states are also eroding their health-care infrastructure
16 by requiring providers to report any patients seeking gender-affirming
17 health care to law enforcement. Providers are being forced to choose
18 compliance with state law over their oath to do no harm, and those laws
19 conflict with the strongest recommendations by the American Academy
20 of Pediatrics that transgender youth be given the fullest range of medical
21 and psychiatric care possible.

22 (g) The national reproductive health and gender-affirming
23 health-care infrastructure is being eroded, and Colorado's health-care
24 infrastructure is being strained;

25 (h) In states where abortion and gender-affirming health care are
26 still legal, the influx of patients from states with criminal bans or severe
27 restrictions has created lengthy waiting times for appointments, delaying

1 access to care for all. States hostile to reproductive rights and
2 gender-affirming health care are not content with prohibiting care and
3 access within their borders; such states seek to impose these restrictions
4 on every other state as well. Colorado OB-GYN physicians have said
5 publicly that the increased need for care is beyond their current capacity
6 and is physically and mentally unsustainable, leading to burnout in the
7 profession and major delays in patient treatment. Likewise, current and
8 future politically motivated restrictions on gender-affirming care in other
9 states will create an adjacent crisis in Colorado.

10 (i) Abortion and gender-affirming care providers are
11 overwhelmed, fear violence and legal consequences, and face a dramatic
12 increase in patient numbers. They also fear attacks on their licensure,
13 denial of liability insurance, and interstate prosecution. Patients, and those
14 who support them, are also scared. Individuals seeking abortion care, and
15 those who help them, face criminal prosecution. The parents of youth
16 seeking gender-affirming health care face charges of child abuse and
17 neglect. Additional restrictions on reproductive and gender-affirming
18 health care are anticipated, which could further restrict access, make it
19 difficult to obtain accurate information, make it harder to travel for care,
20 and even prohibit access to safe, FDA-approved abortion medication and
21 gender-affirming hormones.

22 (j) As Colorado is further impacted by neighboring states'
23 reproductive and gender-affirming health-care restrictions, Colorado will
24 see the same deepening of existing inequities for poor or geographically
25 underserved people, and Black and Indigenous communities and other
26 communities of color;

27 (k) In the face of these attacks, policymakers and advocates in

1 many other states are seeking to protect providers, patients, and those who
2 assist them from the criminal prosecution they face from new laws.
3 Colorado has led the nation with regard to civil rights, including
4 individuals' rights to the full range of reproductive and gender-affirming
5 health care, and Coloradans have resoundingly rejected abortion bans at
6 the ballot box four times in the past fifteen years. Therefore, it is critical
7 that these safeguards be enacted in statute. As a state, we will continue to
8 ensure that every individual has the fundamental right to reproductive and
9 gender-affirming health care and that all health-care providers have the
10 protection needed to offer essential care without fear for their safety or
11 fear of losing their license or insurance.

12 (l) It stands to reason that reproductive and gender-affirming
13 health-care providers in states with abortion and gender-affirming
14 health-care bans will want to relocate to states that protect their practice
15 and values, thereby becoming an important part of Colorado's health-care
16 infrastructure; and

17 (m) Other states friendly to reproductive and gender-affirming
18 health-care rights are taking steps to protect care in their states, including:

19 (I) In 2022, fourteen governors and nine local governments took
20 executive action to protect providers and the patients who travel across
21 state lines to receive abortion care;

22 (II) California, Connecticut, Delaware, Illinois, Massachusetts,
23 New York, New Jersey, and Washington, D.C., passed legislation
24 designed to protect people who travel across state lines to receive an
25 abortion and the providers who care for those patients;

26 (III) In May 2022, lawmakers and advocates from nineteen states,
27 including Colorado, pledged to introduce legislation to protect

1 transgender youth seeking gender-affirming health care and their families;
2 and

3 (IV) Massachusetts and Illinois enacted legislation to protect
4 gender-affirming health-care patients and providers, and California is
5 expected to follow suit during its next legislative session.

6 (2) The general assembly further finds that despite the passage of
7 House Bill 22-1279, concerning the "Reproductive Health Equity Act",
8 the national, legally chaotic landscape resulting from other states' current
9 and anticipated restrictions has caused widespread fear and confusion
10 among Colorado providers and patients traveling to Colorado for care.

11 (3) Therefore, the general assembly declares that medical
12 professionals currently practicing in Colorado, as well as those moving
13 to our state, should feel safe doing their jobs, and patients from Colorado
14 and elsewhere should feel safe accessing the health care they need that
15 Colorado has protected in law. It is critical that Colorado stand up for the
16 providers of legally protected health care, their patients, and those who
17 support them.

18 **SECTION 2.** In Colorado Revised Statutes, **add** 10-4-109.6 as
19 follows:
