Summary of Legislation

The bill establishes requirements for a vehicle value protection agreement, which can be offered by licensed dealers of cars and other motor vehicles. A value protection agreement offers the contract holder a benefit against the lost value of a motor vehicle from an adverse event or theft.

A dealer or other entity providing the agreement may only offer a vehicle value protection agreement meeting specified requirements, and must not condition the extension of credit or the terms of a sale or lease on the purchase of a protection agreement. Dealers must have liability insurance that guarantees payment if the dealer fails to meet obligations in the agreement

A vehicle value protection agreement that is in compliance with all the bill's requirements is not itself considered insurance, and is exempt from regulation as insurance by the Division of Insurance in the Department of Regulatory Agencies.

State Revenue and Expenditures

The bill does not change revenue or expenditures for the Division of Motor Vehicles or the Motor Vehicle Dealer Board in the Department of Revenue, or for the Division of Insurance in the Department of Regulatory Agencies. This fiscal note assumes that licensed dealers and other

providers will comply with the law and offer agreements that conform to legal requirements. If a vehicle purchaser seeks a compliance remedy in civil courts, workload and fees increase for the trial courts in Judicial Department; however, new court cases are assumed to be minimal and do not require additional appropriations. Any related court filing fees, which are subject to TABOR, are also assumed to be minimal.

Effective Date

The bill was signed into law by the Governor on March 23, 2023, and takes effect on August 7, 2023, assuming no referendum petition is filed.
