Summary of Legislation

The bill requires the Department of Corrections to contract with a third-party organization to develop and study strategies for implementing a pre-release and reentry program at the Sterling Correctional Facility by August 1, 2023. The organization must consult with facility residents to design a program that provides participants with resources to support rehabilitation and to reduce recidivism upon release from the Sterling facility. The contractor must conduct an implementation study to evaluate the costs, challenges, and benefits of the program, and report recommendations to the General Assembly on December 31, 2023, after which the program is repealed.

State Expenditures

In FY 2023-24 only, the bill will increase expenditures in the DOC by \$100,000 to contract with a third-party organization. This amount is based on contractor costs in the DOC for prior legislation. In addition, workload to the DOC will increase to modify computer programming to collect data points required by the bill. This work can be accomplished within existing appropriations.

Other Budget Impacts

General Fund reserve. Under current law, an amount equal to 15 percent of General Fund appropriations must be set aside in the General Fund statutory reserve. Based on this fiscal note, the bill is expected to increase the amount of General Fund held in reserve by the amounts shown in Table 1, decreasing the amount of General Fund available for other purposes.

Effective Date

The bill takes effect upon signature of the Governor, or upon becoming law without his signature.

State Appropriations

For FY 2023-24, the bill requires an appropriation of \$100,000 from the General Fund to the Department of Corrections.
