Bill Topic:	REDUCE INCOME TAX SOCIAL SECURITY BENEFITS				
Summary of Fiscal Impact:	<ul><li>☑ State Revenue</li><li>☑ State Expenditure</li></ul>	☐ State Transfer ☑ TABOR Refund	☐ Local Government☐ Statutory Public Entity		
	The bill removes the cap on the amount of social security income that individuals ages 55 to 64 may deduct from their state income tax. It reduces state revenue on an ongoing basis and requires one-time expenditures for implementation.				
Appropriation Summary:	No appropriation is required.				
Fiscal Note Status:	The fiscal note reflects the introduced bill.				

# Table 1 State Fiscal Impacts Under HB 24-1142

		Budget Year FY 2024-25	Out Year FY 2025-26
Revenue	General Fund	(\$1.7 million)	(\$3.5 million)
Expenditures	General Fund	-	\$16,209
Transfers		-	-
Other Budget Impacts	General Fund Reserve	-	\$2,431
	TABOR Refunds	(\$1.7 million)	(\$3.5 million)

## **Summary of Legislation**

Under current law, taxpayers ages 55 to 64 may deduct up to \$20,000 of pension and annuity income, which includes federally taxable social security income, when calculating their Colorado taxable income. The bill increases the limit for these taxpayers so that all of their federally taxed social security income is deductible in Colorado. The current cap still applies to all other forms of pension and annuity income, and the cap may only be exceeded when social security income specifically is higher than the cap. For taxpayers whose social security income exceeds the \$20,000 cap, the deduction is limited to their amount of social security income. Under current law, taxpayers over age 65 may already deduct the full amount of federally taxable social security income, or other forms of pension and annuity income up to \$24,000.

## **Assumptions**

The fiscal note assumes that the bill will take effect beginning in tax year 2025. See the technical note below.

### **State Revenue**

The bill is expected to decrease state revenue by \$1.7 million in FY 2024-25 (a half-year impact), by \$3.5 million in FY 2025-26, and by similar amounts in future years. The bill is assumed not to increase the number of taxpayers claiming the state income tax deduction for pension and annuity income, only to increase deduction amounts for taxpayers who qualify. The bill only affects the portion of social security beneficiaries ages 55 to 64 who receive more than \$20,000 in federally taxable social security benefits per year. The expanded deduction in the bill would have applied to about 8,000 taxpayers (6.5 percent of those claiming the existing deduction), had it been in effect for tax year 2019, the most recent year for which actual data are available. This population was adjusted for growth in the number of households headed by people ages 45 to 64, and the deduction amount was increased for inflation.

# **State Expenditures**

The bill increases General Fund expenditures in the Department of Revenue (DOR) by \$16,209 in FY 2025-26. These costs are shown in Table 2 and detailed below.

Table 2 Expenditures Under HB 24-1142

		FY 2024-25	FY 2025-26
Department of Revenue			_
Computer Programming and Testing		-	\$8,817
Research and Analysis		-	\$7,392
	Total Cost	-	\$16,209

**Computer programming and testing.** For FY 2025-26 only, the DOR will have one-time costs of \$8,817 for computer programming and testing. Programming costs are estimated at \$4,635, representing 20 hours of contract programming at a rate of \$231.75 per hour. Costs for testing to ensure that programming changes are functioning properly are estimated at \$4,182, representing 82 hours for the Innovation, Strategy, and Delivery section in the Executive Director's Office at \$35 per hour and 41 hours of user acceptance testing at a rate of \$32 per hour.

**Research and Analysis.** Expenditures in the Office of Research and Analysis are required for changes in related GenTax reports so that the department can access and document tax statistics related to the new tax policy. These costs are estimated at \$7,392, or 231 hours for data management and reporting at a rate of \$32 per hour FY 2025-26 and ongoing.

## **Other Budget Impacts**

**TABOR refunds.** The bill is expected to decrease the amount of state revenue required to be refunded to taxpayers by the amounts shown in the State Revenue section above. This estimate assumes the December 2023 LCS revenue forecast. A forecast of state revenue subject to TABOR is not available beyond FY 2025-26. Because TABOR refunds are paid from the General Fund, decreased General Fund revenue will lower the TABOR refund obligation, but result in no net change to the amount of General Fund otherwise available to spend or save.

**General Fund reserve.** Under current law, an amount equal to 15 percent of General Fund appropriations must be set aside in the General Fund statutory reserve. Based on this fiscal note, the bill is expected to increase the amount of General Fund held in reserve by the amounts shown in Table 1, decreasing the amount of General Fund available for other purposes.

### **Technical Note**

The fiscal note assumes that the new income tax deduction under the bill takes effect in tax year 2025, to comply with Article X, Section 20 (8), of the Colorado Constitution, which precludes a change in the definition of taxable income from taking effect until the next tax year.

### **Effective Date**

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
