Agreed-upon Procedures Year Ended June 30, 2022

The procedures performed and the results of our testing are described below.

Agreed-upon Procedures Related to Internal Control

1. We obtained an understanding of the internal control environment and accounting systems unique to athletics that have not been addressed in connection with the audit of the University of Colorado (the System) financial statements. We documented our understanding of these internal controls.

Agreed-upon Procedures Related to Affiliates and Outside Organizations

- 2. The University identified the University of Colorado Foundation (the Foundation) as an outside intercollegiate athletics-related organization incurring expenses on behalf of athletics which are not under the University's accounting control. We confirmed activity with the Foundation and ensured the activity was included in the Statement.
- 3. We obtained the audited financial statements as of and for the year ended June 30, 2022 for the Foundation and communication from the Foundation's auditors noting no matters that would significantly affect the Statement.

Revenues

Procedure	Result
All Revenue Categories, Minimum Agreed- upon Procedures	
• Compared and agreed each operating revenue category reported in the Statement during the reporting period to supporting schedules provided by the University. If a specific reporting category is less than 4.0% of the total revenues, no procedures are required for that specific category.	See procedures performed in specific revenue categories.
 Compared and agreed a sample of operating revenue receipts obtained from the above operating revenue supporting schedules to adequate supporting documentation. 	See procedures performed in specific revenue categories.

Agreed-upon Procedures Year Ended June 30, 2022

Procedure Result

 Compared each major revenue account over 10% of the total revenues to prior period amounts and budget estimates.
 Obtained and documented an explanation of any variations greater than 10%.

We compared each revenue amount reported in the Statement to prior year amounts and current year budget estimates. We obtained and documented an understanding of any significant variances (10% change) from prior year and budget amounts, as noted below. We noted during our testing that the budget is adopted on a basis that is slightly different from that of the Statements. As such, the comparison performed used budget and actual amounts that are grouped differently than the Statement and does not include all revenues and expenses on the Statement. This is not an exception, as the Department is not required to adopt a budget based on the reporting categories in the Statement.

Current Year Actual Versus Prior Year Actual

- *Ticket Sales* Increased \$19,133,444 or 45827%, due to the increase in ticket sales during FY 2022. Due to COVID-19 in 2021 no fans were allowed thus no ticket sales.
- Contributions Increased 9,055,317 or 242% due to the increase in ticket sales during FY 2022. Due to COVID-19 in 2021 no fans were allowed thus no ticket sales. The University receives a large portion of the contributions through ticket sales.
- *Media Rights* Increased 4,298,701 or 30% due to more games on television during FY 2022 than in 2021 thus increasing revenue.

We compared the total tickets sold during the reporting period reported by the University to the Statement and recalculated the totals noting the University was unable to reconcile the tickets sold completely for football, men's basketball and women's basketball. Football tickets per the GL were 31,331 tickets, \$17,089 above what was reported to the NCAA, men's basketball tickets were 556 below (\$10,211) what was reported to the NCAA and women's basketball tickets were 89 tickets below (\$336) what was reported to the NCAA. The reporting discrepancies occurred due to the University's inability to produce a reconciliation for ticket sales due to turnover. According to the University, it has taken steps to rectify the issue and does not anticipate this to occur in the future.

Student Fees

- Compared and agreed student fees reported by the University in the Statement for the reporting to student enrollments during the same reporting period and recalculated totals.
- 3. Obtained documentation of University's methodology for allocating student fees to intercollegiate athletics programs.

If using the NCAA CA software, this equivalency value will be calculated for you on the CRDE report labeled "Revenue Distribution Equivalent Award."

Grants-in-Aid

- Compared and agreed the sports sponsored reported in the NCAA Membership Financial Reporting System to the Calculation of Revenue Distribution Equivalencies Report (CRDE) from Compliance Assistant (CA) or other report that supports the equivalency calculations from the University. The NCAA Membership Financial Reporting System populates the sports from the NCAA Sports Sponsorship and Demographics Form as they are reported by the University. If there is a discrepancy in the sports sponsored between the NCAA Membership Financial Reporting System and the CRDE or other report that supports the equivalency calculations, inquired about the discrepancy and report the justification in the AUP report.
- We compared and agreed the sports sponsored reported in the NCAA Membership Financial Reporting System to the Calculation of Revenue Distribution Equivalencies Report (CRDE) from CA noting a difference in the amount of \$620,852, 5% due to the equivalencies certified and calculated on the 12-credit hour semester as compared to the actual number of credit hours the students are enrolled in for the semester.

• Compared current year Grants-in-Aid revenue distribution equivalencies to prior year reported equivalencies per the Membership Financial Report submission. Inquired and documented an explanation for any variance great than +/- 4%.

Sports Sponsorship

Obtained the University's Sports Sponsorship and Demographics Form submitted to the NCAA for the reporting year between May and August. Validated that the countable NCAA sports reported by the University met the minimum requirements, set forth in Bylaw 20.9.6.3, related to the number of contests and the number of participants. If the University requested and/or received a waiver related to minimum contests or minimum participants for a sport, that sport would not qualify as a sponsored sport for the purposes of revenue distribution. Also, only sports in which the NCAA conducts championships competition, emerging sports for women and bowl subdivision football are eligible. Once countable sports have been validated, ensure that the institution has properly reported these sports as countable for revenue distribution

We obtained the University's Sports Sponsorship and Demographics Forms Report for the reporting year. We validated that the countable sports reported by the University meet the minimum requirements set forth in Bylaw 20.9.6.3 for the number of contests and the number of participants in each contest that is counted toward meeting the minimum-contest requirements without exception. We ensured that the University has properly reported these sports as countable for revenue distribution purposes within the NCAA Membership Financial Reporting System.

Notes to the Statement of Revenues and Expenses
Year Ended June 30, 2022
(Unaudited)

Note 1: Basis of Accounting

The accompanying statement of revenues and expenses presents the results of financial activity of the University of Colorado (the University) at Boulder Department of Intercollegiate Athletics (the Department) and are not intended to present the operations of the University as a whole.

The accompanying statement of revenues and expenses has been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America, except for the reporting of debt service payments. Under the accrual basis of accounting, revenues are recognized when earned, expenses are recorded when an obligation is incurred, and loans are not recorded as revenue, but rather as a debt transaction. Yet, for purposes of this Statement, when debt payments are made, this is reported as an expense.

For reporting purposes, the sports in which the University participates are reported separately. The administrative functions of the Department, which supports all sports, have been combined and reported within the "other" category.

Note 2: Summary of Significant Accounting Policies

The following is a summary of the more significant accounting policies of the Department, which affect significant elements of the accompanying statement of revenues and expenses.

Revenues – Revenues from operations have been allocated based on management's estimate of which sport generated the income. Gifts have been allocated as directed by the donor. Financial aid support has been allocated based on the actual payments made in support of each activity.

Revenues received during a given fiscal year but not expended were either used to cover prior year deficits or are carried forward for use by the Department in future fiscal years, including repayment of the internal campus loans received in prior years.

Capital Assets – Capital assets are stated at cost at the date of acquisition or acquisition value at the date of donation on the University's financial statements. For equipment, the capitalization policy includes all items with a value of \$5,000 or more, and an estimated useful life of greater than one year. Renovations to buildings and other improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the Statement.

The Department follows the University of Colorado Fiscal Procedures for acquiring and approving intercollegiate athletics-related assets and follows University campus policies and procedures for disposing of intercollegiate athletics-related assets.

Notes to the Statement of Revenues and Expenses Year Ended June 30, 2022 (Unaudited)

Depreciation is computed using the straight-line method and monthly convention over the estimated useful lives of the assets as displayed in the following table:

Asset Class	Years
Buildings	12 - 50 *
Improvements other than buildings	10 - 40
Equipment	2 - 20

^{*} Certain building are componentized and the components may have useful lives similar to improvements or equipment

Note 3: Concentration of Donor Sources

The Foundation is the single largest source of athletics restricted endowment and investments income. The restricted endowments and investment income are used for various expenses for athletics. The total funds available by the Foundation for the benefit of athletics is \$49,046,721 as of June 30, 2022.

All University revenue bonds are special limited obligations of the University's governing Board of Regents (the Regents) and are payable solely from the pledged revenues (or the net income of the facilities, as defined in the bond resolution). The revenue bonds are not secured by any encumbrance, mortgage, or other pledge of property, except pledged revenues, and do not constitute general obligations of the Regents.

Notes to the Statement of Revenues and Expenses Year Ended June 30, 2022 (Unaudited)

The University revenue bonds contain provisions to establish and maintain reasonable fees, rates, and other charges to ensure gross revenues are sufficient for debt service coverage. The University is also required to comply with various other covenants while the bonds are outstanding. These covenants, among other things, restrict the disposition of certain assets, require the Regents to maintain adequate insurance, and require the Regents to continue to operate the underlying programs. Management of the University believes the University has met all debt service coverage ratios and has complied with all bond covenants.

The University Treasury issued internal loans to the Department to cover the unpaid costs of prior financing and other multi-projects.

As of June 30, 2022, University debt totaled \$2,618,912,030. Of this amount, \$180,498,970 was athletics-related debt. Additionally, there is a balance of \$12,463,970 related to internal University loans taken out by the Department for further funding.
